having the starboard side, when in | Shall We Sow Grass or Clover. Nashville American: We have shown how large an interest the South has in the proposed appropriation by Congress of \$77,000,000 for educational purposes. Let us take the case of Tennessee alone. By the census of 1880, our population ten years of age and upward was 1,062,130, the whites numbering 790,744, and the blacks 271,386. Of the former 216,000, or 27.3 per cent., and of the latter 194,495, or 71.7 per cent., could not write; the total number, white and black, who could not write was 410,722, or 38.7 per cent. of the population over ten years of age. The number of per years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the population over ten years of age. The number of per cent of the cack taking the windward, and the other side. Giles one of the four collection on the opposite side of population of the same of the tent of the per commissioned officers are collected to put those to make, all the officer have counties that Col. Killebrew said would raise either blue grass or coton, a circumstance or condition to the tent of the per condition of the population o Nashville American: We have harbor, and when at sea the officer Editor Spirit of the Farm.

cent of the population over ten years of age. The number of persons, white and black, in the state was 294.385, or 27.7 per cent. of all was 294.385, or 27.7 per cent. of all a salute.

was 294.385, or 27.7 per cent. of all over ten years of age. In the list of forty-seven states and territories, Tennessee stands tenth, as to illiteracy. This is a lamentable exhibit. The educational bill has the advocacy of the most intelligent and progressive newspapers of the south. Touching upon the points discussed by the American yesterday the Louisville Post shows that the bill does not give the federal government any right whatever to inter
board with the boatswain's pipe as a salute.

Glass, Putty, &c.

To sum up, we have following as our people have sown largely of blue grass, fall, winter, spring and summer, spending thousands of grass seed, and tens of thousands in preparation. The results often in preparation. The results often pens), he lives in this monotonous way. The line and staff officers, above the grade of entity, &c.

The captain messes alone in the cabin, having his own steward, sook and waiter, and unless he invites some of the officers to dine with him at times (as often happens), he lives in this monotonous way. The line and staff officers, above the grade of entity, winter, spring and summer, spending thousands of grass seed, and tens of thousands in preparation. The results often pens), he lives in this monotonous way. The line and staff officers, above the grade of entity, winter, spring and tens of thousands of the cabin, having his own steward, summer, spending thousands of grass seed, and tens of thousands in preparation. The results often pens), he lives in this monotonous way. The line and staff officers, above the grade of entity, with the time the grass should have been getting at its best it would become infested with the horizon of the stock men, live in the main saloon of the vegling many articles it is best it would become infested with the horizon of the stock men, live in the main saloon of the vegling many articles it is best it would become infested with the horizon way.

The deductional bill has the advocate and tens of thousands for present and tens of the south.

does not give the federal government any right whatever to interfere with the management of the schools. It simply says to the states, "the government has collected more taxes from you than are needed, and it therefore returns you this money to be used for educational purposes in your own way and under your exclusive control,"

The talk about centralization is

tional purposes in your own way and under your exclusive control. The telf about centralization is sherr nonsense. There is far bright and the property of the

made for. The cotton mills of this state and South Carolina are earning dividends by sending their products to Boston and New York. If we had large manufactures of wood in our heavily timbered districts, we could repeat the process of underselfing the east in this branch of trade. And the reason for it is all plain; we have cheaper raw materials, cheaper labor and a more fa
tritious than others, and if it should be found that articles which can be despot gets finely set with clover. It has another decided advantage until it hardens on cooling. The hot glue, and the mass evaporated until it hardens on cooling. The hard substance dissolves rapidly in law which can be of grass, in that grass allows all points to break into gullies, the clover culture alternating with wheat the waste straw of which can be effectually, used to stop all breaks and gullies, and enrich poor points. Then we have none of the sedge grass nuisance. Nor have we to grass nuisance. Nor have we to should an edition that articles which hat articles wh made for. The cotton mills of this tritious than others, and if it should fence corner and woods lot and gallcontary employment causes nervous prostration, irregularities of the blood, stomach, bowels or kidneys or whorequire a nerve tonic, appetizer or stimulant, Samanuran Nerving is invaluable. Thousands proclaim it the most wonderful invigorant that ever sustained the shiking system.
